

Oshenite[®] - MHP MICROBIAL CONTROLLING PLASTICS ENHANCER

Oshenite[®] - MHP

MICROBIAL CONTROLLING PERFORMANCE MINERAL

NEW

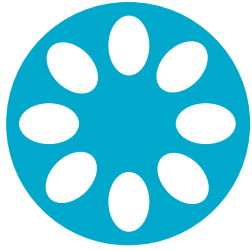

Oshenite Plastics Enhancer Product - unlike anything on the market!

Oshenite[®]-MHP available with PE, PS and PP carriers for all applications - Flexible films, Rigid sheeting, Injection and Blow molded packaging and products. Oshenite[®]-MHP is produced and supplied exclusively by U.S. Aragonite Enterprises and partners.

Patented ion process technology delivers the following benefits:

- Microbial controlling properties inhibit bacteria that cause food borne illnesses, odors, mold, mildew and algae in food and non-food applications
- Effective over a long period of time, 1-2 years
- Non-toxic and safe; uses FDA GRAS ingredients -permitted for use in direct food contact applications
- Odorless and tasteless
- Effective over a wide temperature range: -30 degrees F to 375 degrees F
- Competitive cost. Oshenite[®]-MHP should allow a processor to manufacture their product with microbial controlling characteristics at approximately same cost
- Oshenite[®] renewable performance mineral component offers a wide range of economic, performance and environmental benefits
